## Front-End/Full-Stack Developer

I consider myself a motivated and detail-oriented developer. I am proficient in creating responsive and user-friendly web applications. Skilled in developing web pages using a front-end stack along with popular UI libraries.

Experienced in creating full-stack applications with modern packages and frameworks. Eager to contribute and grow within a cooperative team environment.

## Work Experience

**Freelance. Front-end Development** Aug 2023 - Current time  
[My projects](#) ( Implemented: websites and landing pages )  
**Used stack:** HTML5, CSS/SCSS, JavaScript, Gulp/Vite, Web API's

**Javascript Internship, Full-Stack. Binary Studio** Jun - Aug 2024  
During this 3-months internship I've learnt new technologies, and also fit up existing knowledges. I faced challenges with WebSockets, Docker and backend structure, but eventually I was able to complete the assigned tasks.  
**Used stack:** Typescript / HTTP, REST API / WebSockets / React, Vite / Redux, RTK / CI / CD / Docker / JS-Testing / DB, PostgreSQL / Node, Express / Javascript Patterns / ReactNative

Projects where I implemented functionality (without styling):

- [Movie app](#) - fetching movies by categories from TMDB; *load more*, and *favorite movies* functionality.
- [Booking Travel App](#) - navigation using React Router; - protected routes, authentication; - token saving; - booking a trip via pop-up functionality; - search filters;
- [JS: Database and SQL](#). In this task, I learned how to build SQL/PostgreSQL databases, tables, diagrams, and relationships.

**Revizor Avto LTD, revizoravto.com.ua** Jan - Apr 2024
